#### Note 1. Organization

Audax Credit BDC Inc. (the "Company") is a Delaware corporation that was formed on January 29, 2015. The Company is an externally managed, closed-end, non-diversified management investment company that has elected to be treated as a business development company ("BDC") under the Investment Company Act of 1940, as amended (the "1940 Act"). In addition, effective with the Company's taxable year ended December 31, 2015, the Company has elected to be treated for federal income tax purposes and intends to comply with the requirements to qualify annually as a regulated investment company ("RIC") under Subchapter M of the U.S. Internal Revenue Code of 1986, as amended (the "Code").

The Company commenced business operations on July 8, 2015, the date on which the Company made its first investment. The Company was formed for the purpose of investing primarily in the debt of leveraged, non-investment grade middle market companies, with the principal objective of generating income and capital appreciation. The Company's investment strategy is to invest primarily in first lien senior secured loans and selectively in second lien loans to middle market companies. During the period prior to July 8, 2015, the Company was a development stage company, as defined in Paragraph 915-10-05, *Development Stage Entity*, of the Financial Accounting Standards Board's ("FASB's") Accounting Standards Codification, as amended ("ASC"). During this time, the Company was devoting substantially all of its efforts to establishing its business and its planned principal operations had not commenced. All losses incurred during the period prior to July 8, 2015 have been considered a part of the Company's development stage activities.

Audax Management Company (NY), LLC (the "Adviser") is the investment adviser of the Company. The Adviser is registered as an investment adviser with the U.S. Securities and Exchange Commission (the "SEC") under the Investment Advisers Act of 1940, as amended.

#### **Note 2. Significant Accounting Policies**

#### **Basis of Presentation**

As an investment company, the accompanying financial statements of the Company are prepared in accordance with the investment company accounting and reporting guidance of ASC Topic 946, "*Financial Services – Investment Companies*," as amended ("ASC Topic 946"), which incorporates the requirements for reporting on Form 10-Q and Articles 6 and 10 of Regulation S-X, as well as generally accepted accounting principles in the United States of America ("GAAP").

Certain financial information that is normally included in annual financial statements, including certain financial statement footnotes, prepared in accordance with GAAP, is not required for interim reporting purposes and has been condensed or omitted herein. Accordingly, certain disclosures accompanying annual financial statements prepared in accordance with GAAP are omitted. In the opinion of management of the Company, the unaudited financial results included herein contain all adjustments, consisting solely of normal accruals, considered necessary for the fair presentation of financial statements for the interim period included herein. The current period's results of operations are not necessarily indicative of the operating results to be expected for future periods. The accounting records of the Company are maintained in U.S. dollars.

#### Use of Estimates

The preparation of financial statements in conformity with GAAP requires management of the Company to make estimates and assumptions that may affect the reported amounts and disclosures in the financial statements. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ, and these differences could be material.

#### Cash and Cash Equivalents

Cash and cash equivalents are stated at fair value. The Company considers all highly liquid investments purchased with maturities of three months or less and money market mutual funds to be cash equivalents. No cash equivalent balances were held on September 30, 2021 and December 31, 2020. At such dates, cash was not subject to any restrictions on withdrawal.

#### Expenses

The Company is responsible for investment expenses, legal expenses, auditing fees and other expenses related to the Company's operations. Such fees and expenses, including expenses initially incurred by the Adviser, may be reimbursed by the Company.

#### Investment Valuation Policy

The Company conducts the valuation of the Company's investments, pursuant to which the Company's net asset value is determined, at all times consistent with GAAP and the 1940 Act. The Company's Board of Directors (the "Board of Directors"), with the assistance of the Company's Audit Committee (the "Audit Committee"), determines the fair value of the Company's investments, for investments with a public market and for investments with no readily available public market, on at least a quarterly basis, in accordance with the terms of ASC Topic 820, "*Fair Value Measurement*," ("ASC 820"). The Company's valuation procedures are set forth in more detail below.

ASC 820 defines fair value as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." Fair value is a marketbased measurement, not an entity-specific measurement. For some assets and liabilities, observable market transactions or market information might be available. For other assets and liabilities, observable market transactions and market information might not be available. However, the objective of a fair value measurement in both cases is the same – to estimate the price when an orderly transaction to sell the asset or transfer the liability would take place between market participants at the measurement date under current market conditions (that is, an exit price at the measurement date from the perspective of a market participant that holds the asset or owes the liability).

ASC 820 establishes a hierarchal disclosure framework which ranks the observability of inputs used in measuring financial instruments at fair value. The observability of inputs is impacted by a number of factors, including the type of financial instruments and their specific characteristics. Financial instruments with readily available quoted prices, or for which fair value can be measured from quoted prices in active markets, generally will have a higher degree of market price observability and a lesser degree of judgment applied in determining fair value.

The three-level hierarchy for fair value measurement is defined as follows:

- Level 1 Inputs to the valuation methodology are quoted prices available in active markets for identical financial instruments as of the measurement date. The types of financial instruments in this category include unrestricted securities, including equities and derivatives, listed in active markets. The Company does not adjust the quoted price for these instruments, even in situations where the Company holds a large position, and a sale could reasonably be expected to impact the quoted price.
- *Level 2* Inputs to the valuation methodology are quoted prices in markets that are not active or for which all significant inputs are either directly or indirectly observable as of the measurement date. The types of financial instruments in this category include less liquid and restricted securities listed in active markets, securities traded in markets that are not active, government and agency securities, and certain over-the-counter derivatives where the fair value is based on observable inputs.
- *Level 3* Inputs to the valuation methodology are unobservable and significant to the overall fair value measurement, and include situations where there is little, if any, market activity for the

investment. The inputs into the determination of fair value require significant management judgment or estimation. The types of financial instruments in this category include investments in privately held entities, non-investment grade residual interests in securitizations, collateralized loan obligations, and certain over-the-counter derivatives where the fair value is based on unobservable inputs.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the determination of which category within the fair value hierarchy is appropriate for any given financial instrument is based on the lowest level of input that is significant to the fair value measurement. Assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the financial instrument.

Pursuant to the framework set forth above, the Company values securities traded in active markets on the measurement date by multiplying the exchange closing price of such traded securities/instruments by the quantity of shares or amount of the instrument held. The Company may also obtain quotes with respect to certain of its investments from pricing services, brokers or dealers' quotes, or counterparty marks in order to value liquid assets that are not traded in active markets.

Pricing services aggregate, evaluate and report pricing from a variety of sources including observed trades of identical or similar securities, broker or dealer quotes, model-based valuations and internal fundamental analysis and research. When doing so, the Company determines whether the quote obtained is sufficient in accordance with GAAP to determine the fair value of the security. If determined adequate, the Company uses the quote obtained.

Securities that are illiquid or for which the pricing source does not provide a valuation or methodology or provides a valuation or methodology that, in the judgment of the Board of Directors, does not represent fair value, are each valued as of the measurement date using all techniques appropriate under the circumstances and for which sufficient data are available. These valuation techniques vary by investment but include comparable public market valuations, comparable precedent transaction valuations and discounted cash flow analyses. Inputs for these valuation techniques include relative credit information, observed market movement, industry sector information, and other market data, which may include benchmarking of comparable securities, issuer spreads, reported trades, and reference data, such as market research publications, when available. The process used to determine the applicable value is as follows:

(i) Each portfolio company or investment is initially valued by the investment professionals of the Adviser responsible for the portfolio investment using a standardized template designed to approximate fair market value based on observable market inputs and updated credit statistics and unobservable inputs. Additionally, as a part of the Company's valuation process, the Adviser may employ the services of one or more independent valuation firms engaged by the Company;

(ii) Preliminary valuation conclusions are documented and discussed with the Company's senior management and members of the Adviser's valuation team;

(iii) The Audit Committee reviews the assessments of the Adviser or independent valuation firm (to the extent applicable) and provides the Board of Directors with recommendations with respect to the fair value of the investments in the Company's portfolio; and

(iv) The Board of Directors discusses the valuation recommendations of the Audit Committee and determines the fair value of the investments in the Company's portfolio in good faith based on the input of the Adviser, the independent valuation firm (to the extent applicable) and in accordance with the Company's valuation policy.

The Audit Committee's recommendation of fair value is generally based on its assessment of the following factors, as relevant:

- the nature and realizable value of any collateral;
- call features, put features and other relevant terms of debt;
- the portfolio company's ability to make payments;
- the portfolio company's actual and expected earnings and discounted cash flow;
- prevailing interest rates for like securities and expected volatility in future interest rates;
- the markets in which the portfolio company does business and recent economic and/or market events; and
- comparisons to publicly traded securities.

Investment performance data utilized are the most recently available as of the measurement date, which in many cases may reflect up to a one quarter lag in information.

Securities for which market quotations are not readily available or for which a pricing source is not sufficient may include the following:

- private placements and restricted securities that do not have an active trading market;
- securities whose trading has been suspended or for which market quotes are no longer available;
- debt securities that have recently gone into default and for which there is no current market;
- securities whose prices are stale; and
- securities affected by significant events.

The Board of Directors is responsible for the determination, in good faith, of the fair value of the Company's portfolio investments.

Determination of fair value involves subjective judgments and estimates. Accordingly, these notes to the Company's financial statements express the uncertainty with respect to the possible effect of such valuations, and any change in such valuations, on the Company's financial statements.

Security transactions are recorded on the trade date (the date the order to buy or sell is executed or, in the case of privately issued securities, the closing date, which is when all terms of the transactions have been defined).

Realized gains and losses on investments are determined based on the identified cost method.

In addition, on December 3, 2020, the SEC announced that it adopted Rule 2a-5 under the 1940 Act, which establishes an updated regulatory framework for determining fair value in good faith for purposes of the 1940 Act. The adopted rule clarifies how fund boards can satisfy their valuation obligations in light of recent market developments. The rule permits boards, subject to board oversight and certain other conditions, to designate certain parties to perform the fair value determinations. The Company will continue to review the adopted rule and its impact on the Company and its valuation policies and intends to comply with such requirements on or before the SEC's required compliance date in 2022.

Refer to Note 3 — *Investments* for additional information regarding fair value measurements and the Company's application of ASC 820.

#### **Interest Income Recognition**

Interest income, adjusted for amortization of premium, acquisition costs, and amendment fees and the accretion of original issue discount ("OID"), are recorded on an accrual basis to the extent that such amounts are expected to be collected. Generally, when a loan becomes 120 days or more past due, or if the Company's qualitative assessment indicates that the debtor is unable to service its debt or other obligations, the Company will place the loan on non-accrual status and cease recognizing interest income on that loan for financial reporting purposes until the borrower has demonstrated the ability and intent to pay contractual amounts due. However, the Company will remain contractually entitled to this interest. Interest payments received on non-accrual loans are restored to accrual status when past due principal and interest are paid and, in management's judgment, are likely to remain current or, due to a restructuring, the interest income is deemed to be collectible. As of September 30, 2021, the Company did not hold any investment on non-accrual. As of December 31, 2020, the Company had one investment on non-accrual which represented 0.28% and 0.17% of its total portfolio at cost and fair market value, respectively.

The Company currently holds loans in the portfolio that contain OID and payment-in-kind ("PIK") provisions. The Company recognizes OID for loans originally issued at a discount and recognizes the income over the life of the obligation based on an effective yield calculation. PIK interest, computed at the contractual rate specified in a loan agreement, is added to the principal balance of a loan and recorded as income over the life of the obligation. Therefore, the actual collection of PIK income may be deferred until the time of debt principal repayment. To maintain the ability to be taxed as a RIC, the Company may need to pay out of both OID and PIK non-cash income amounts in the form of distributions, even though the Company has not yet collected the cash on either.

As of September 30, 2021, the Company held 213 investments in loans with OID. The Company accrued OID income of \$109,095 and \$338,404 for the three and nine months ended September 30, 2021, respectively. The unamortized balance of OID on debt investments as of September 30, 2021, totaled \$2,413,162. As of December 31, 2020, the Company held 197 investments in loans with OID. The Company accrued OID income of \$102,083 and \$282,729 for the three and nine months ended September 30, 2020, respectively. The unamortized balance of OID investments as of December 31, 2020, totaled \$2,299,058.

As of September 30, 2021, the Company held three investments which had a PIK interest component. The Company recorded \$49,599 and \$200,382 of PIK interest income for three and nine months ended September 30, 2021, respectively. As of September 30, 2020, the Company held three investments which had a PIK interest component. The Company recorded \$39,222 and \$75,145 of PIK interest income for the three and nine months ended September 30, 2020, respectively.

As of September 30, 2021 and December 31, 2020, the Company held \$13,397,892 and \$4,289,122 in cash and cash equivalents, respectively. For the three and nine months ended September 30, 2021, the Company earned \$477 and \$1,107, respectively, of interest income related to cash, which is included in other interest income within the accompanying statement of operations. For the three and nine months ended September 30, 2020, the Company earned \$1,058 and \$31,053, respectively, of interest income related to cash, which is included in other interest income within the accompanying statement of operatively, of interest income related to cash, which is included in other interest.

#### **Other Income Recognition**

The Company generally records prepayment fees and amendment fees upon receipt of cash or as soon as the Company becomes aware of the prepayment or amendment.

Dividend income on equity investments is accrued to the extent that such amounts are expected to be collected and if the Company has the option to collect such amounts in cash.

Prepayment fees, amendment fees and dividend income are accrued in other income in the accompanying statements of operations.

For the three and nine months ended September 30, 2021, the Company accrued \$20,772 and \$83,774 of other income, respectively, related to amendment fees. For the three and nine months ended September 30,

2020, the Company accrued \$14,577 and \$153,950 of other income, respectively, related to amendment fees.

### New Accounting Pronouncements

In March 2020, FASB issued Accounting Standards Update No. 2020-04 ("ASU 2020-04"), "Reference Rate Reform (Topic 848)". In response to concerns about structural risks of interbank offered rates, and particularly the risk of cessation of the London Interbank Offered Rate ("LIBOR"), regulators have undertaken reference rate reform initiatives to identify alternative reference rates that are more observable or transaction based and less susceptible to manipulation. ASU 2020-04 provides optional guidance for a limited period of time to ease the potential burden in accounting for (or recognizing the effects of) reference rate reform on financial reporting. ASU 2020-04 is elective and applies to all entities, subject to meeting certain criteria, that have contracts, hedging relationships, and other transactions that reference LIBOR or another reference rate expected to be discontinued because of reference rate reform. The amendments are effective as of March 12, 2020 through December 31, 2022. Management is currently evaluating the impact of the guidance.

### Note 3. Investments

### Investments

The Company's investments, at any time, may include syndicated loans, securities, structured products and other financial instruments, including, without limitation, corporate and government bonds, convertible securities, term loans, equity securities (both common and preferred), various debt securities (both secured and unsecured), dividend-paying equity, royalties, collateralized loan obligations, and warrants (collectively, the "investments").

#### Fair Value

In accordance with ASC 820, the fair value of the Company's investments is determined to be the price that would be received for an investment in a current sale, assuming an orderly transaction between willing market participants on the measurement date. This fair value definition focuses on exit price in the principal, or most advantageous, market and prioritizes, within a measurement of fair value, the use of market-based inputs over entity-specific inputs. ASC 820 also establishes the three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of a financial instrument as of the measurement date as described in Note 2 - Significant Accounting Policies.

As of September 30, 2021, \$171,713,920 of the Company's investments were valued using unobservable inputs, and \$191,727,540 were valued using observable inputs. During the nine months ended September 30, 2021, \$21,840,607 transferred into Level 3 due to a decrease in observable prices in the market and \$46,432,486 transferred out of Level 3 due to the liquidity in the market and transparency of inputs.

As of December 31, 2020, \$199,000,205 of the Company's investments were valued using unobservable inputs, and \$156,359,638 were valued using observable inputs. During the nine months ended September 30, 2020, \$15,434,694 transferred into Level 3 due to a decrease in observable prices in the market and \$74,210,909 transferred out of Level 3 due to the liquidity in the market and transparency of inputs.

The following table presents the Company's investments carried at fair value as of September 30, 2021 and December 31, 2020, by caption on the Company's accompanying statements of assets and liabilities and by security type.

		Assets at Fair Value as of September 30, 2021

In accordance with ASC 820, the following table provides quantitative information about the Level 3 fair value measurements of the Company's investments as of September 30, 2021. The weighted average calculations in the table below are based on the fair value balances for all debt related calculations for the particular input.

				As of September 30, 2021					
			Unobservable Inputs <sup>(1)</sup>	Range <sup>(2)</sup>	Weighted Average <sup>(3)</sup>

(1) For any portfolio company, the unobservable input "Liquidity" is a fraction, expressed as a percentage, the numerator of which is the sum of the company's undrawn revolving credit facility capacity plus cash, and the denominator of which is the total amount that may be borrowed under the company's revolving credit facility. The unobservable input "Spread Comparison" is a comparison of the spread over LIBOR for each investment to the spread over LIBOR for general leveraged loan transactions.

(2) Each range represents the variance of outputs from calculating each statistic for each portfolio company within a specific credit seniority. The range may be a single data point when there is only one company represented in a specific credit seniority.

(3) Inputs are weighted based on the fair value of the investments included in the range.

The table above does not include \$5,951,715 of debt, equity and preferred shares which management values using other unobservable inputs, such as earnings before interest, taxes, depreciation and amortization ("EBITDA") and EBITDA multiples, as well as other qualitative information, including company specific information.

In accordance with ASC 820, the following table provides quantitative information about the Level 3 fair value measurements of the Company's investments as of December 31, 2020. The weighted average

calculations in the table below are based on the fair value balances for all debt related calculations for the particular input.

			As of December 31, 2020				
		Fair Value	Valuation Technique	Unobservable Inputs <sup>(1)</sup>	Range <sup>(2)</sup>	Weighted Awerage <sup>(3)</sup>

				Spread Comparison	650bps - 950bps	761bps	

(1) For any portfolio company, the unobservable input "Liquidity" is a fraction, expressed as a percentage, the numerator of which is the sum of the company's undrawn revolving credit facility capacity plus cash, and the denominator of which is the total amount that may be borrowed under the company's revolving credit facility. The unobservable input "Spread Comparison" is a comparison of the spread over LIBOR for each investment to the spread over LIBOR for general leveraged loan transactions.

(2) Each range represents the variance of outputs from calculating each statistic for each portfolio company within a specific credit seniority. The range may be a single data point when there is only one company represented in a specific credit seniority.

(3) Inputs are weighted based on the fair value of the investments included in the range.

The table above does not include \$7,970,243 of debt, equity and preferred shares which management values using other unobservable inputs, such as EBITDA and EBITDA multiples, as well as other qualitative information, including company specific information.

Fair value measurements can be sensitive to changes in one or more of the valuation inputs. Changes in market yields, discounts rate, leverage, EBITDA or EBITDA multiples (or revenue or revenue multiples), each in isolation, may change the fair value of certain of the Company's investments. Generally, an increase or decrease in market yields, discount rates or leverage or an increase/decrease in EBITDA or EBITDA multiples (or revenue or revenue multiples) may result in a corresponding decrease or increase, respectively, in the fair value of certain of the Company's investments.

The following tables provide the changes in fair value, broken out by security type, during the nine months ended September 30, 2021 and 2020 for all investments for which the Company determines fair value using unobservable (Level 3) factors.

Nine Months Ended September 30, 2021	Fi	rst lien debt	s	econd lien debt	Equity and Preferred Shares	Total
Fair Value as of December 31, 2020	\$	170,910,171	\$	27,290,845	\$ 799,189	\$ 199,000,205
Transfers into Level 3		21,675,469		-	165,138	21,840,607
Transfers out of Level 3		(39,527,665)		(6,904,821)	-	(46,432,486)
Total gains:

Sales		(4,739,437)		-	 -	 (4,739,437)
Fair Value as of September 30, 2020	\$	156,281,866	\$	25,544,189	\$ 804,939	\$ 182,630,994

(a) Included in net realized loss on the accompanying *Statement of Operations* for the nine months ended September 30, 2020.

(b) Included in net change in unrealized depreciation on the accompanying *Statement of Operations* for the nine months ended September 30, 2020.

(c) Includes increases in the cost basis of investments resulting from portfolio investments, the amortization of discounts, and PIK, as well as decreases in the costs basis of investments resulting from principal repayments or sales, the amortization of premiums and acquisition costs and other cost-basis adjustments.

The change in unrealized value attributable to investments still held at September 30, 2021 and 2020 was \$354,876 and \$(1,542,355), respectively.

#### Investment Activities

The Company held a total of 233 investments with an aggregate fair value of \$363,441,460 as of September 30, 2021. During the nine months ended September 30, 2021, the Company invested in 68 new investments for a combined \$81,669,043 and in existing investments for a combined \$7,643,513. The

Company also received \$66,357,177 in repayments from investments and \$17,331,786 from investments sold during the nine months ended September 30, 2021.

The Company held a total of 216 investments with an aggregate fair value of \$355,359,843 as of December 31, 2020. During the nine months ended September 30, 2020, the Company invested in 40 new investments for a combined \$39,542,336 and in existing investments for a combined \$12,834,005. The Company also received \$27,907,668 in repayments from investments and \$6,437,456 from investments sold during the nine months ended September 30, 2020.

#### Investment Concentrations

As of September 30, 2021, the Company's investment portfolio consisted of investments in 203 companies located in 35 states across 24 different industries, with an aggregate fair value of \$363,441,460. The five largest investments at fair value as of September 30, 2021 totaled \$21,402,661, or 5.89%, of the Company's total investment portfolio as of such date. As of September 30, 2021, the Company's average investment was \$1,565,249 at cost.

As of December 31, 2020, the Company's investment portfolio consisted of investments in 186 companies located in 35 states across 22 different industries, with an aggregate fair value of \$355,359,843. The five largest investments at fair value as of December 31, 2020 totaled \$21,474,504, or 6.04%, of the Company's total investment portfolio as of such date. As of December 31, 2020, the Company's average investment was \$1,661,994 at cost.

The following table outlines the Company's investments by security type as of September 30, 2021 and December 31, 2020:

		Septembe	r 30, 2021		December 31, 2020						
		Percentage of Total		Percentage of Total		Percentage of Total		Percentage of Total

South	4,267,973	1.17	2,550,476	0.72
Northwest	4,045,140	1.11	6,019,773	1.69
Other <sup>(a)</sup>	2,956,904	0.82	1,983,324	0.56
<b>Total Investments</b>	\$ 363,441,460	100.00 %	\$ 355,359,843	100.00 %

(a) The borrower for Sophos, Surf Holdings S.a.r.l., is located in United Kingdom. The borrower for UDG Healthcare, Congachant Limited, is located in Ireland.

The geographic region indicates the location of the headquarters of the Company's portfolio companies. A portfolio company may have a number of other business locations in other geographic regions.

### Investment Principal Repayments

The following table summarizes the contractual principal repayments and maturity of the Company's investment portfolio by fiscal year, assuming no voluntary prepayments, as of September 30, 2021:

For the Fiscal Years Ending December 31:	 Amount
2021	\$ 932,798
2022	14,225,869
2023	24,969,709
2024	55,006,964
2025	71,860,510
Thereafter	 199,613,227
Total contractual repayments	366,609,077
Adjustments to cost basis on debt investments <sup>(a)</sup>	 (2,413,162)
Total Cost Basis of Debt Investments Held at September 30, 2021:	\$ 364,195,915

(a) Adjustment to cost basis related to unamortized balance of OID investments.

#### COVID-19 Developments

During the nine months ended September 30, 2021 and subsequent to September 30, 2021, the COVID-19 pandemic continues to have a significant impact on the U.S. economy. Certain of the Company's portfolio companies were adversely impacted by the effects of the COVID-19 pandemic, which resulted in a material adverse impact on the Company's net asset value, net investment income, the fair value of its portfolio investments, its financial condition and the results of operations and financial condition of the Company's portfolio companies and may continue to adversely affect the Company's future net asset value, net

investment income, the fair value of its portfolio investments, its financial condition and the results of operations and financial condition of the Company's portfolio companies.

### **Note 4. Related Party Transactions**

#### **Investment Advisory Agreement**

The Company has entered into an investment advisory agreement (the "Investment Advisory Agreement") with the Adviser. In accordance with the Investment Advisory Agreement, the Company pays the Adviser certain fees as compensation for its services, such fees consisting of a base management fee and an incentive fee (the "Incentive Fee"). The services the Adviser provides to the Company, subject to the overall supervision of the Board of Directors, include managing the day-to-day operations of, and providing investment services to, the Company. The Company also entered into a management fee waiver agreement with the Adviser (the "Waiver Agreement"), which the Company or the Adviser may terminate upon 60 days' prior written notice.

#### Management Fee

The base management fee is calculated at an annual rate of 1.0% of the Company's average gross assets including cash and any temporary investments in cash-equivalents, including U.S. government securities and other high-quality investment grade debt investments that mature in 12 months or less from the date of investment, payable quarterly in arrears on a calendar quarter basis.

Pursuant to the Waiver Agreement, the Adviser has agreed to waive the right to receive the base management fee to the extent necessary so that the base management fee payable under the Investment Advisory Agreement equals, and is calculated in the same manner as if, the base management fee otherwise payable by the Company were calculated at an annual rate equal to 0.65% (instead of an annual rate of 1.00%).

For the three and nine months ended September 30, 2021, the Company recorded base management fees of \$947,361 and \$2,810,141, respectively, and waivers to the base management fees of \$331,576 and \$983,548, respectively, as set forth within the accompanying statements of operations. For the three and nine months ended September 30, 2020, the Company recorded base management fees of \$874,188 and \$2,697,570, respectively, and waivers to the base management fees of \$305,966 and \$944,150, respectively, as set forth within the accompanying statements of operations.

#### Incentive Fee

The Incentive Fee has two parts, as follows: the first part of the Incentive Fee is calculated and payable quarterly in arrears based on the Company's pre-incentive fee net investment income for the immediately preceding calendar quarter. For this purpose, pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees (other than fees for providing managerial assistance), such as commitment, origination, structuring, diligence and consulting fees or other fees that the Company receives from portfolio companies) accrued during the calendar quarter, minus the Company's operating expenses accrued for the quarter (including the base management fee, expenses payable under the Administration Agreement (as defined below) and any interest expense on any credit facilities or outstanding debt and dividends paid on any issued and outstanding preferred stock, but excluding the Incentive Fee).

The Company determines pre-incentive fee net investment income in accordance with GAAP, including, in the case of investments with a deferred interest feature, such as debt instruments with PIK interest, OID securities and accrued income that the Company has not yet received in cash. Pre-incentive fee net investment income does not include any realized capital gains, computed net of all realized capital losses or unrealized capital appreciation or depreciation. Pre-incentive fee net investment income, expressed as a rate of return on the value of the Company's net assets at the end of the immediately preceding calendar quarter, is compared to a hurdle of 1.0% per quarter (4.0% annualized). The Company determines its average gross assets during each fiscal quarter and calculates the base management fee payable with respect to such amount at the end of each fiscal quarter. As a result, a portion of the Company's net investment income is included in its gross assets for the period between the date on which such income is earned and the date on which such

income is distributed. Therefore, the Company's net investment income used to calculate part of the Incentive Fee is also included in the amount of the Company's gross assets used to calculate the 1.0% annual base management fee. The Company pays its Adviser an Incentive Fee with respect to its pre-incentive fee net investment income in each calendar quarter as follows:

- no amount is paid on the income-portion of the Incentive Fee in any calendar quarter in which the Company's pre-incentive fee net investment income does not exceed the hurdle of 1.0% (4.0% annualized);
- 100% of the Company's pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 1.1765 % in any calendar quarter (4.706% annualized). The Company refers to this portion of its pre-incentive fee net investment income (which exceeds the hurdle rate but is less than 1.1765%) as the "catch-up" provision. The catch-up is meant to provide the Adviser with 15.0% of the pre-incentive fee net investment income as if a hurdle rate did not apply if net investment income exceeds 1.1765% in any calendar quarter (4.706% annualized); and
- 15.0% of the amount of the Company's pre-incentive fee net investment income, if any, that exceeds 1.1765% in any calendar quarter (4.706% annualized) is payable to the Adviser.

Pursuant to the Waiver Agreement, the Adviser has agreed to waive its right to receive the Incentive Fee on pre-incentive fee net investment income to the extent necessary so that such Incentive Fee equals, and is calculated in the same manner as, the corresponding Incentive Fee on pre-incentive fee net investment income, if such Incentive Fee (i) were calculated based upon the Adviser receiving 10.0% (instead of 15.0%) of the applicable pre-incentive fee net investment income and (ii) did not include any "catch-up" feature in favor of the Adviser.

The second part of the Incentive Fee is determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Advisory Agreement, as of the termination date), and equals 15.0% of the Company's realized capital gains, if any, on a cumulative basis from June 16, 2015, the effective date of the Company's registration statement on Form 10 (file no. 000-55426), through the end of each calendar year, computed net of all realized capital losses and unrealized capital depreciation on a cumulative basis, less the aggregate amount of any previously paid capital gain Incentive Fees with respect to each of the investments in the Company's portfolio.

Pursuant to the Waiver Agreement, the Adviser has agreed to waive the right to receive the Incentive Fee on capital gains to the extent necessary so that such portion of the Incentive Fee equals, and is calculated in the same manner as, the corresponding Incentive Fee on capital gains, if such portion of the Incentive Fee were calculated based upon the Adviser receiving 10.0% (instead of 15.0%).

In addition, pursuant to the Waiver Agreement, the Adviser has agreed to waive the right to receive both components of the Incentive Fee to the extent necessary so that it does not receive Incentive Fees which are attributable to income and gains of the Company that exceed an annualized rate of 12.0% in any calendar quarter.

The waivers from the Adviser will remain effective until terminated earlier by either party upon 60 days' prior written notice.

Under the Investment Advisory Agreement, we do not pay any Capital Gains Incentive Fee in respect of unrealized capital appreciation in our portfolio. However, under U.S. generally accepted accounting principles, or GAAP, we are required to accrue for the Capital Gain Incentive Fee on a quarterly basis as if such unrealized capital appreciation were realized in full at the end of each period. If the Capital Gain Incentive Fee Base, adjusted as required by GAAP to include unrealized appreciation, is positive at the end of a period, then GAAP and the terms of the Investment Advisory Agreement require us to accrue a capital gain incentive fee equal to 20% of such amount, less the aggregate amount of actual capital gain incentive fees paid or capital gain incentive fees accrued under GAAP in all prior periods. If such amount is negative,

then there is no accrual for such period. The resulting accrual under GAAP for a capital gain incentive fee payable in any period will result in additional expense if such cumulative amount is greater than in the prior period, or in a reversal of previously recorded expense if such cumulative amount is less than in the prior period. We can offer no assurance that any unrealized capital appreciation will be realized in the future.

For the three and nine months ended September 30, 2021, the Company recorded incentive fees related to net investment income of \$260,092 and \$647,839, respectively. Offsetting the incentive fees were waivers of the incentive fees of \$234,083 and \$583,056 for the three and nine months ended September 30, 2021, respectively, as set forth within the accompanying statements of operations. For the three and nine months ended September 30, 2020, the Company recorded incentive fees related to net investment income of \$356,461 and \$1,641,419, respectively. Offsetting the incentive fees were waivers of the incentive fees of \$320,815 and \$1,437,466 for the three and nine months ended September 30, 2020, respectively, as set forth within the accompanying statements of operations.

### Administration Agreement and Administrative Fee

The Company has also entered into an administration agreement (the "Administration Agreement") with Audax Management Company, LLC (the "Administrator") pursuant to which the Administrator provides administrative services to the Company. Under the Administration Agreement, the Administrator performs, or oversees the performance of administrative services necessary for the operation of the Company, which include being responsible for the financial records which the Company is required to maintain and prepare reports filed with the SEC. In addition, the Administrator assists in determining and publishing the Company's net asset value, oversees the preparation and filing of the Company's tax returns and the printing and dissemination of reports to the Company's stockholders, and generally oversees the payment of the Company's expenses and the performance of administrative and professional services rendered to the Company by others. The Company reimburses the Administrator for its allocable portion of the costs and expenses incurred by the Administrator for overhead in performance by the Administrator of its duties under the Administration Agreement, including the cost of facilities, office equipment and the Company's allocable portion of cost of compensation and related expenses of its Chief Financial Officer and Chief Compliance Officer and their respective staffs, as well as any costs and expenses incurred by the Administrator relating to any administrative or operating services provided by the Administrator to the Company. Such costs are reflected as an administrative fee in the accompanying statements of operations.

The Company has also entered into a fee waiver agreement with the Administrator, pursuant to which the Administrator may waive, in whole or in part, its entitlement to receive reimbursements from the Company.

The Company accrued administrative fees of \$66,250 and \$198,750 for the three and nine months ended September 30, 2021, respectively, as set forth within the accompanying statements of operations. The Company accrued administrative fees of \$66,250 and \$198,750 for the three and nine months ended September 30, 2020, respectively, as set forth within the accompanying statements of operations.

#### **Related Party Fees**

Fees due to related parties as of September 30, 2021 and December 31, 2020 on the Company's accompanying statements of assets and liabilities were as follows:

	Septen	nber 30, 2021	Decer	nber 31, 2020
Net base management fee due to Adviser	\$	615,785	\$	597,141
Net incentive fee due to Adviser		26,009		17,703
Total fees due to Adviser, net of waivers		641,794		614,844
Fee due to Administrator, net of waivers		66,250		66,250
<b>Total Related Party Fees Due</b>	\$	708,044	\$	681,094

#### Note 5. Net Increase in Net Assets Resulting from Operations Per Share of Common Stock:

The following table sets forth the computation of basic and diluted net increase in net assets resulting from operations per weighted average share of the Company's common stock, par value \$0.001 per share (the "Common Stock"), for the three and nine months ended September 30, 2021 and 2020:

	 Months Ended mber 30, 2021	 Months Ended mber 30, 2020	 Months Ended mber 30, 2021	 Months Ended mber 30, 2020
Numerator for basic and diluted net increase in net				
assets resulting from operations per common share	\$ 4,241,313	\$ 9,195,505	\$ 13,539,858	\$ 4,420,458

Basic and diluted net increase in net assets	 , ,	 	 	 - ,, -
resulting from operations per common share	\$ 0.11	\$ 0.24	\$ 0.34	\$ 0.12

#### Note 6. Income Tax

The Company has elected to be regulated as a BDC under the 1940 Act, as well as elected to be treated, and intends to comply with the requirements to qualify annually, as a RIC under Subchapter M of the Code. As a RIC, the Company generally is not subject to corporate-level U.S. federal income taxes on any ordinary income or capital gains that it timely distributes as dividends for U.S. federal income tax purposes to its stockholders. To qualify to be treated as a RIC, the Company is required to meet certain source of income and asset diversification requirements, and to timely distribute dividends out of assets legally available for distributions to its stockholders of an amount generally equal to at least 90% of the sum of its net ordinary income and net short-term capital gains in excess of net long-term capital losses, if any (i.e., "investment company taxable income," determined without regard to any deduction for dividends paid), for each taxable year. The amount to be paid out as distributions to the Company's stockholders is determined by the Board of Directors and is based on management's estimate of the fiscal year earnings. Based on that estimate, the Company intends to make the requisite distributions to its stockholders, which will generally relieve the Company from corporate-level U.S. federal income taxes. Although the Company currently intends to distribute its net capital gains (i.e., net long-term capital gains in excess of net short-term capital losses), if any, recognized in respect of each taxable year as dividends out of the Company's assets legally available for distribution, the Company in the future may decide to retain for investment and be subject to entity-level income tax on such net capital gains. Additionally, depending on the level of taxable income earned in a taxable year, the Company may choose to carry forward taxable income in excess of current year distributions into the next taxable year and incur a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year distributions, the Company will accrue an excise tax, if any, on estimated excess taxable income as such excess taxable income is earned.

The Company had aggregate distributions declared and paid to its stockholders for the year ended December 31, 2020 of \$16,177,757, or \$0.43 per share. The tax character of the distributions declared and paid represented \$15,911,638 from ordinary income and \$266,119 from tax return of capital. The Company had aggregate distributions declared and paid to its stockholders for the year ended December 31, 2019 of \$17,084,202, or \$0.52 per share. The tax character of the distributions declared and paid represented \$16,941,968 from ordinary income and \$142,234 from tax return of capital.

During the nine months ended September 30, 2021, the Company declared and paid distributions of \$7,801,905, or \$0.20 per share. The tax character of the distributions declared and paid represented \$7,656,579 from ordinary income and \$145,326 from tax return of capital. During the nine months ended September 30, 2020, the Company declared and paid distributions of \$8,125,607, or \$0.215 per share. The tax character of the distributions declared and paid represented \$8,125,607 from ordinary income.

The determination of the tax attributes of the Company's distributions is made annually at the end of the Company's taxable year, based upon the Company's taxable income for the full taxable year and distributions paid for the full taxable year. Therefore, a determination made on an interim basis may not be representative of the actual tax attributes of distributions for a full taxable year. The actual tax characteristics of distributions to stockholders will be reported to the Company's stockholders subject to information reporting after the close of each calendar year on Form 1099-DIV.

GAAP requires adjustments to certain components of net assets to reflect permanent differences between financial and tax reporting. These adjustments have no effect on net asset value per share. For the years ended December 31, 2020 and 2019, the Company recorded the following adjustments for permanent book to tax differences to reflect their tax characteristics. The adjustments only change the classification in net assets in the statements of assets and liabilities. During the years ended December 31, 2020 and 2019, the Company reclassified for book purposes amounts arising from permanent book/tax differences primarily related to distribution redesignations and return of capital distributions.

	Ye	Year Ended		ar Ended
	Decem	ber 31, 2020	Decem	ber 31, 2019
Capital in excess of par value	\$	-	\$	(1,583)
Accumulated net investment income		(37,662)		(49,515)
Accumulated net realized gain (loss)		37,662		51,098

At December 31, 2020 and 2019, the components of distributable taxable earnings as detailed below differ from the amounts reflected in the Company's statements of assets and liabilities by temporary book/tax differences primarily arising from amortization of organizational expenditures.

		As of		As of
	De	cember 31,	De	cember 31,
		2020		2019
Other temporary book/tax differences	\$	(192,992)	\$	(213,307)
Net tax bas is unrealized depreciation		(3,630,949)		(1,847,095)
Accumulated net realized loss		(3,157,649)		(670,443)
Components of tax distributable (deficit) earnings at period end	\$	(6,981,590)	\$	(2,730,845)

Certain losses incurred by the Company after October 31 of a taxable year are deemed to arise on the first business day of the Company's next taxable year. The Company did not incur such losses after October 31 of the Company's taxable year ended December 31, 2020.

Capital losses are generally eligible to be carried forward indefinitely and retain their status as short-term or long-term in the manner originally incurred by the Company. As of December 31, 2020, the Company has long-term capital loss carryforward of \$3,157,649. The Company has evaluated tax positions it has taken, expects to take, or that are otherwise relevant to the Company for purposes of determining whether any relevant tax positions would "more-likely-than-not" be sustained by the applicable tax authority in accordance with ASC Topic 740, "*Income Taxes*," as modified by ASC Topic 946. The Company has analyzed such tax positions and has concluded that no unrecognized tax benefits should be recorded for uncertain tax positions for taxable years that may be open. The Company is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months. The Company's U.S. federal tax returns for fiscal years 2018, 2019, and 2020 remain subject to examination by the Internal Revenue Service. The Company records tax positions that are not deemed to meet a more-likely-than-not threshold as tax expenses as well as any applicable penalties or interest associated with such positions. During each of the years ended December 31, 2020, 2019, and 2018, no tax expense or any related interest or penalties were incurred.

### Note 7. Equity

An investor made capital commitments to the Company in the amounts set forth below as of the date opposite each capital commitment:

Amount	Date
\$140,000,000	June 23, 2015
\$50,000,000	December 2, 2016
\$100,000,000	On December 7, 2017
\$40,000,000	March 22, 2019
\$30,000,000	September 23, 2019
\$11,200,000	March 20, 2020
\$8,900,000	May 28, 2021

As of September 30, 2021, all capital commitments have been funded by the Company's investors.

The number of shares of Common Stock issued and outstanding as of September 30, 2021 and December 31, 2020, were 39,961,405 and 38,343,580, respectively.

The following table details the activity of Stockholders' Equity for the three and nine months ended September 30, 2021 and 2020:

#### Note 8. Commitments and Contingencies

The Company may enter into certain credit agreements that include loan commitments where all or a portion of such commitment may be unfunded. The Company is generally obligated to fund the unfunded loan commitments at the borrowers' discretion. Funded portions of credit agreements are presented on the accompanying schedule of investments. Unfunded loan commitments and funded portions of credit agreements are fair valued and unrealized appreciation or depreciation, if any, have been included in the accompanying statements of assets and liabilities and statements of operations.

The following table summarizes the Company's significant contractual payment obligations as of September 30, 2021 and December 31, 2020:

Investment	Industry	September 30, 2021	December 31, 2020

(a) Based on weighted average basic per share of Common Stock data.

(b) The per share amount varies from the net realized and unrealized gain (loss) for the period because of the timing of sales

of fund shares and the per share amount of realized and unrealized gains and losses at such time.

(c) For the three and nine months ended September 30, 2021, the 0.00 is due to rounding.

(d) Total return is based on the change in net asset value during the respective periods. Total return also takes into account dividends and distributions, if any, reinvested in accordance with the Company's dividend reinvestment plan.

(e) Average net assets are computed using the average balance of net assets at the end of each month of the reporting period.

(f) Ratio of gross expenses to average net assets is computed using expenses before waivers from the Adviser and Administrator.

(g) Ratio of net expenses to average net assets is computed using total expenses net of waivers from the Adviser and Administrator.
(h) Not annualized.

## Note 10. Indemnification

In the normal course of business, the Company may enter into certain contracts that provide a variety of indemnities. The Company's maximum exposure under these indemnities is unknown. The Company does not consider it necessary to record a liability in this regard.

## Note 11. Subsequent Events

Subsequent to September 30, 2021, the Company invested \$4,381,567 at cost in 16 portfolio companies.

# ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In this quarterly report on Form 10-Q, except where the context suggests otherwise, the terms "we," us," our" and the "Company" refer to Audax Credit BDC Inc. The information contained in this section should be read in the conjunction with the financial statements and notes to the financial statements appearing elsewhere in this quarterly report.

This quarterly report and other statements contain forward-looking statements that involve substantial risks and uncertainties. Such statements involve known and unknown risks, uncertainties and other factors and undue reliance should not be placed thereon. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates and projections about our company, our current and prospective portfolio investments, our industry, our beliefs and our assumptions. Words such as "anticipates," "expects," "intends," "plans," "will," "may," "continue," "believes," "seeks," "estimates," "would," "could," "should," "targets," "projects," and variations of these words and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties and other factors, some of which are beyond our control and difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements, including:

- our future operating results;
- our business prospects and the prospects of our portfolio companies;
- our ability to continue to effectively manage our business due to COVID-19 and similar pandemics;
- the ability of our portfolio companies to achieve their objectives;
- the timing of cash flows, if any, from the operations of our portfolio companies;
- the ability of our Adviser to locate suitable investments for us and to monitor and administer our investments;
- changes in the general economy;
- risk associated with possible disruptions in our operations or the economy generally;
- the effect of investments that we expect to make;
- our contractual arrangements and relationships with third parties;
- actual and potential conflicts of interest with Adviser and its affiliates;
- the dependence of our future success on the general economy and its effect on the industries in which we invest;
- changes in political, economic or industry conditions, the interest rate environment or conditions affecting the financial and capital markets, which could result in changes to the value of our assets;
- the adequacy of our financing sources and working capital;
- the ability of our Adviser and its affiliates to attract and retain highly talented professionals;
- our ability to qualify and maintain our qualification as a BDC and as a RIC; and
- the risks, uncertainties and other factors we identify under "*Item 1A. Risk Factors*" and elsewhere in our Annual Report on Form 10-K filed on March 19, 2021 (file no. 814-01154) (the "Annual Report").

Although we believe that the assumptions on which these forward-looking statements are based are reasonable, any of those assumptions could prove to be inaccurate, and as a result, the forward-looking statements based on those assumptions also could be inaccurate. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this quarterly report should not be regarded as a representation by us that our plans and objectives will be achieved. These risks and uncertainties include those described or identified in the section entitled "Item 1A. Risk Factors" of this quarterly report and our Annual Report as well as risk factors described or identified in other filings we may make with the SEC from time to time. You should not place undue reliance on these forward-looking statements, which apply only as of the date of this quarterly report. Moreover, we assume no duty and do not undertake to update the forward-looking statements. The forward-looking statements and projections contained in this quarterly report are excluded from the safe harbor protection provided by Section 27A of the Securities Act and provided by Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act").

#### **OVERVIEW**

Audax Credit BDC Inc. is a Delaware corporation that was formed on January 29, 2015. We are an externally managed, closed-end, non-diversified management investment company that has elected to be treated as a BDC under the 1940 Act. In addition, we have elected to be treated for U.S. federal income tax purposes and intend to comply with the requirements to qualify annually, as a RIC under Subchapter M of the Code.

Our investment objective is to generate current income and, to a lesser extent, long-term capital appreciation. We intend to meet our investment objective by investing primarily in senior secured debt of privately owned U.S. middle market companies. We intend to invest at least 80% of our net assets plus the amount of any borrowings in "credit instruments," which we define as any fixed income instruments. We may also invest, at any time and from time to time, in syndicated loans, securities, structured products and other financial instruments, including, without limitation, corporate and government bonds, convertible securities, term loans, equity securities (both common and preferred), various debt securities (both secured and unsecured), dividend-paying equity, royalties, collateralized loan obligations, and warrants.

Although we have no present intention of doing so, we may decide to incur leverage. If we do incur leverage, however, we anticipate that it will be used in limited circumstances and on a short-term basis for purposes such as funding distributions. As a BDC, we are limited in our use of leverage under the 1940 Act. Under the 1940 Act, a BDC generally is required to maintain asset coverage of 200% for senior securities representing indebtedness (such as borrowings from banks or other financial institutions) or stock (such as preferred stock). The Small Business Credit Availability Act (the "SBCAA"), which was signed into law on March 23, 2018, provides that a BDC's required asset coverage under the 1940 Act may be reduced from 200% (i.e., \$1 of debt outstanding for each \$1 of equity) to 150% (i.e., \$2 of debt outstanding for each \$1 of equity). This reduction in asset coverage permits a BDC to double the amount of leverage it may utilize, subject to certain approval, timing and reporting requirements, including either stockholder approval or approval of a majority of the directors who are not "interested persons" (as defined in the 1940 Act) of the BDC and who have no financial interest in the arrangement. In addition, as a nontraded BDC, if we receive the relevant approval to increase our authorized leverage, we will be required to offer our stockholders the opportunity to sell their shares of Common Stock over the next year following the calendar quarter in which the approval was obtained. In determining whether to use leverage, we will analyze the maturity, covenants and interest rate structure of the proposed borrowings, as well as the risks of such borrowings within the context of our investment outlook and the impact of leverage on our investment portfolio. The amount of any leverage that we will employ as a BDC will be subject to oversight by our Board of Directors.

We generate revenue in the form of interest on the debt securities that we hold in our portfolio companies. The senior debt we invest in generally has stated terms of three to ten years. Our senior debt investments generally bear interest at a floating rate. Interest on debt securities is generally payable quarterly or semiannually. In some cases, some of our investments may provide for deferred interest payments or PIK interest. The principal amount of the debt securities and any accrued but unpaid interest generally will become due at the maturity date. In addition, we may generate revenue in the form of commitment and other fees in connection with transactions, although we do not expect to do so. OID as well as market discount and premium are accreted and amortized in determining our interest income. We record any prepayment premiums on loans and debt securities as income.

#### COVID-19 Developments

The market disruptions caused by the ongoing COVID-19 pandemic may continue to adversely affect the business operations of some of our portfolio companies and may continue to affect our operations and the operations of our Adviser. As the COVID-19 outbreak to evolve, we cannot predict its continuing impact on our business operations, including its duration in the United States and worldwide, the uncertainty surrounding the various vaccination mandates as more contagious strains of the virus emerge in various countries, including the United States (particularly the "Delta variant"). Such contagious variants, in conjunction with more frequent and concentrated social gatherings, including the re-opening of many schools and colleges across the country, and more relaxed mask requirements and social distancing norms have resulted in surges in the rates of COVID-19 infections worldwide. Furthermore, large portions of the population in the United States and elsewhere remain unvaccinated

due to limited access to vaccines, the politicization of the vaccine mandates, the general public distrust of the safety and efficacy of the vaccine and the potential future adverse reactions to the vaccine. Such developments may increase the risk that the pandemic will continue for a prolonged period of time. As such, the extent to which COVID-19 and/or other health pandemics may affect negatively our operating results and financial condition and the operating results and financial condition of some of our portfolio companies, as well as the duration of any potential business or supply-chain disruption for our portfolio companies, is uncertain.

We will continue to monitor developments relating to the COVID-19 pandemic and guidance from U.S. and international authorities, including federal, state and local public health officials and may take additional actions based on their recommendations. In these circumstances, there may be developments beyond our control requiring us to adjust our plan of operation. As such, given the dynamic nature of this situation, we cannot reasonably estimate the impacts of COVID-19 on our financial condition, results of operations or cash flows in the future. However, we expect that it may continue to have an adverse impact on our future net asset value, net investment income, the fair value of our portfolio investments, and the results of operations and financial condition of some of our portfolio companies, and that such adverse effects may persist for the duration of the pandemic and potentially for some time thereafter.

## PORTFOLIO COMPOSITION AND INVESTMENT ACTIVITY

## Portfolio Composition

The fair value of our investments, comprised of syndicated loans and equity, as of September 30, 2021, was approximately \$363,441,460 and held in 203 portfolio companies. The fair value of our investments, comprised of syndicated loans and equity, as of December 31, 2020, was approximately \$355,359,843 and held in 186 portfolio companies.

During the nine months ended September 30, 2021, we invested in 68 new investments for a combined \$81,669,043 and in existing investments for a combined \$7,643,513. We also received \$66,357,177 in repayments from investments and \$17,331,786 from investments sold during the nine months ended September 30, 2021. During the nine months ended September 30, 2020, we invested in 40 new syndicated investments for a combined \$39,542,336 and in existing investments for a combined \$12,834,005. We also received \$27,907,668 in repayments from investments and \$6,437,456 from investments sold during the nine months ended September 30, 2020.

In addition, for the three and nine months ended September 30, 2021, we had a change in unrealized appreciation of approximately \$94,068 and \$2,369,406, respectively, and realized gains (losses) of \$183,204 and \$(450,168), respectively. For the three and nine months ended September 30, 2020, we had a change in unrealized appreciation (depreciation) of approximately \$6,436,468 and \$(6,732,122), respectively, and realized losses of \$1,039,704 and \$1,043,096, respectively.

Our investment activity for the nine months ended September 30, 2021 and 2020, is presented below:

	 Months Ended ember 30, 2021	Nine Months Ended September 30, 2020		
Beginning investment portfolio, at fair value	\$ 355,359,843	\$ 330,874,911		
Investments in new portfolio investments	81,669,043	39,542,336		
Investments in existing portfolio investments	7,643,513	12,834,005		
Principal repayments	(66,357,177)	(27,907,668)		
Proceeds from investments sold	(17,331,786)	(6,437,456)		
Change in premiums, discounts and amortization	538,786	357,873		
Net change in unrealized appreciation (depreciation) on investments	2,369,406	(6,732,122)		
Realized loss on investments	 (450,168)	 (1,043,096)		
Ending portfolio investment activity, at fair value	\$ 363,441,460	\$ 341,488,783		
Number of portfolio investments	 233	 202		
Average investment amount, at cost	\$ 1,565,249	\$ 1,733,010		
Percentage of investments at floating rates	99.42 <b>%</b>	99.41 <b>%</b>		

As of September 30, 2021 and December 31, 2020, our entire portfolio consisted of non-controlled/non-affiliated investments.

## **RECENT DEVELOPMENTS**

Subsequent to September 30, 2021 and through November 11, 2021, we invested \$4,381,567 at cost in 16 portfolio companies.

# **RESULTS OF OPERATIONS**

The net increase or decrease in net assets from operations may vary substantially from period to period as a result of various factors, including the recognition of realized gains and/or losses and net change in unrealized appreciation and depreciation. This "*Results of Operations*" section should be read in conjunction with the "*COVID-19 Developments*" section above.

#### Revenue

Total investment income for the three and nine months ended September 30, 2021 and 2020 is presented in the table below.

	Three Months Ended September 30, 2021		Three Months Ended September 30, 2020		Nine Months Ended September 30, 2021		Nine Months Ended September 30, 2020	
Total interest income from non-controlled/non-								
affiliated investments	\$	4,924,039	\$	4,721,470	\$	14,455,194	\$	14,885,290
Total other interest income		477		1,058		1,107		31,053
Total other income		20,772		14,577		83,774		153,950
Total investment income	\$	4,945,288	\$	4,737,105	\$	14,540,075	\$	15,070,293

Total investment income for the three months ended September 30, 2021 increased to \$4,945,288 from \$4,737,106 for the three months ended September 30, 2020, and was driven by our increasing investment balance which was partially offset by a decrease in LIBOR over the period. Total investment income for the nine months ended September 30, 2021 decreased to \$14,540,075 from \$15,070,293 for the nine months ended September 30, 2020, and was driven by a decrease in LIBOR over the period which was partially offset by our increasing investment balance. As of September 30, 2021 and 2020, the size of our debt portfolio was \$364,195,915 and \$348,947,419 at amortized cost, respectively, with total debt principal amount outstanding of \$366,609,077 and \$350,848,873, respectively.

#### Expenses

Total expenses net of waivers for the three and nine months ended September 30, 2021 and 2020, were as follows:

	Three Months Ended September 30, 2021		Three Months Ended September 30, 2020		 Months Ended mber 30, 2021	Nine Months Ended September 30, 2020	
Base management fee <sup>(a)</sup>	\$	947,361	\$	874,188	\$ 2,810,141	\$	2,697,570
Incentive fee <sup>(a)</sup>		260,092		356,461	647,839		1,641,419
Administrative fee <sup>(a)</sup>		66,250		66,250	198,750		198,750
Directors' fees		56,250		52,500	168,750		157,500
Professional fees		108,251		132,514	345,947		369,572
Other expenses		108,702		83,232	314,632		191,422
Total expenses		1,546,906		1,565,145	 4,486,059		5,256,233
Base management fee waivers <sup>(a)</sup>		(331,576)		(305,966)	(983,548)		(944,150)
Incentive fee waivers <sup>(a)</sup>		(234,083)		(320,815)	(583,056)		(1,437,466)
Total expenses, net of waivers	\$	981,247	\$	938,364	\$ 2,919,455	\$	2,874,617

(a) Refer to Note 4-Related Party Transactions within the financial statements for a description of the relevant fees.

The increase in base management fees before waivers for the three months ended September 30, 2021 in comparison to the three months ended September 30, 2020 was driven by our increasing invested balance. For the three months ended September 30, 2021 and 2020, we accrued gross base management fees before waivers of \$947,361 and \$874,188, respectively. Offsetting those fees, we recognized base management fee waivers of \$331,576 and \$305,966, respectively. For the three months ended September 30, 2021, we accrued incentive fees related to net investment income before waivers of \$260,092, offset by incentive fee waivers of \$234,083. For the three months ended September 30, 2020, we accrued incentive fees related to net investment income before waivers of \$320,815. Additionally, we accrued \$66,250 of administrative fees for both the three months ended September 30, 2021 and 2020. Refer to Note 4 — *Related Party Transactions* in the notes accompanying our financial statements for more information related to base management fees, incentive fees and waivers.

During the three months ended September 30, 2021 and 2020, we incurred professional fees of \$108,251 and \$132,514, respectively, related to audit fees, tax fees, and legal expenses. The decrease in professional fees was driven by a decrease in legal expenses during the three months ended September 30, 2021

During the three months ended September 30, 2021 and 2020, we incurred other expenses of \$108,702 and \$83,232, respectively, related to subscription fees, operating fees, custody fees, and other company expenses. The increase in other expenses was driven by an increase in the Delaware state franchise tax applicable to the Company for the three months ended September 30, 2021. We also incurred expenses related to fees paid to our independent directors of \$56,250 and \$52,500 for each of the three-month period ended September 30, 2021 and 2020, respectively.

The increase in base management fees before waivers for the nine months ended September 30, 2021 in comparison to the nine months ended September 30, 2020 was driven by our increasing invested balance. For the nine months ended September 30, 2021 and 2020, we accrued gross base management fees before waivers of \$2,810,141 and \$2,697,570, respectively. Offsetting those fees, we recognized base management fee waivers of \$983,548 and \$944,150, respectively. For the nine months ended September 30, 2021, we accrued incentive fees related to net investment income before waivers of \$647,839, offset by incentive fee waivers of \$583,056. For the nine months ended September 30, 2020, we accrued incentive fees related to net investment income before waivers of \$1,437,466. The decrease in incentive fees related to net investment income for the nine months ended September 30, 2021 in comparison to the nine months ended September 30, 2020 was driven by the decrease in LIBOR which decreased the yield of our variable rate debt

investments. Additionally, we accrued \$198,750 of administrative fees for both the nine months ended September 30, 2021 and 2020. Refer to Note 4 — *Related Party Transactions* in the notes accompanying our financial statements for more information related to base management fees, incentive fees and waivers.

During the nine months ended September 30, 2021 and 2020, we incurred professional fees of \$345,947 and \$369,572, respectively, related to audit fees, tax fees, and legal expenses. The decrease in professional fees was driven by a decrease in legal expenses during the nine months ended September 30, 2021

During the nine months ended September 30, 2021 and 2020, we incurred other expenses of \$314,632 and \$191,422, respectively, related to subscription fees, operating fees, custody fees, and other company expenses. The increase in other expenses was driven by an increase in the Delaware state franchise tax applicable to the Company during the nine months ended September 30, 2021. We also incurred expenses related to fees paid to our independent directors of \$168,750 and \$157,500 for each of the nine-month period ended September 30, 2021 and 2020, respectively.

## **Realized and Unrealized Gains and Losses**

We recognized \$183,204 and \$(1,039,704) in net realized gains (losses) for the three months ended September 30, 2021 and 2020, respectively. We recognized \$450,168 and \$1,043,096 in net realized losses for the nine months ended September 30, 2021 and 2020, respectively.

Net change in unrealized appreciation (depreciation) on investments for the three and nine months ended September 30, 2021 and 2020 was as follows:

							Months Ended mber 30, 2020
S	<i>,</i>	S	/	S	,	\$	(6,149,319)
Ψ	20,633	Ŷ	381,273	Ŷ	438,678	Ψ	(668,484)
	48,138		(48,615)		292,445		85,681
\$	94,068	\$	6,436,468	\$	2,369,406	\$	(6,732,122)
		48,138	September 30, 2021     Septem       \$     25,297     \$       20,633     48,138	September 30, 2021     September 30, 2020       \$     25,297     \$     6,103,810       20,633     381,273     48,138     (48,615)	September 30, 2021     September 30, 2020     Septemb	September 30, 2021     September 30, 2020     September 30, 2021       \$     25,297     \$     6,103,810     \$     1,638,283       20,633     381,273     438,678     438,678       48,138     (48,615)     292,445	September 30, 2021     September 30, 2020     September 30, 2021     Septemb

Net change in unrealized appreciation on investments during the three and nine months ended September 30, 2021 was primarily due to the change in the results and financial position of the portfolio companies. Net change in unrealized appreciation (depreciation) on investments during the three and nine months ended September 30, 2020 was primarily due to the change in the results and financial position of the portfolio companies.

## FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

We generate cash primarily from the net proceeds of any offering of shares of our Common Stock, from cash flows from interest and fees earned from our investments, and from principal repayments and proceeds from sales of our investments. Our primary uses of cash are investments in portfolio companies, payments of our expenses and cash distributions to our stockholders. As of September 30, 2021 and December 31, 2020, we had cash of \$13,397,892 and \$4,289,122, respectively. This "Financial Condition, Liquidity and Capital Resources" section should be read in conjunction with the "COVID-19 Developments" section above.

### **Operating Activities**

Net cash provided by operating activities for the nine months ended September 30, 2021 was \$1,810,650. This was primarily driven by repayment of bank loans and sales of investments totaling \$66,357,177 and \$17,331,786, respectively, and was partially offset by investments in portfolio companies. Net cash used in operating activities for the nine months ended September 30, 2020 was \$2,424,706. The primary operating activities during this period were investments in portfolio companies. This was partially offset by repayments of bank loans.

As of September 30, 2021 and December 31, 2020, we had 26 and 14 investments, respectively, with unfunded commitments of \$6,981,786 and \$3,676,567, respectively. We believe that, as of both September 30, 2021 and December 31, 2020, we had sufficient assets to adequately cover any obligations under our unfunded commitments.

The following table summarizes our total portfolio activity during the nine months ended September 30, 2021 and 2020:

	 Months Ended mber 30, 2021	 Months Ended ember 30, 2020
Beginning investment portfolio	\$ 355,359,843	\$ 330,874,911
Investments in new portfolio investments	81,669,043	39,542,336
Investments in existing portfolio investments	7,643,513	12,834,005
Principal repayments	(66,357,177)	(27,907,668)
Proceeds from sales of investments	(17,331,786)	(6,437,456)
Net change in unrealized appreciation (depreciation) on investments	2,369,406	(6,732,122)
Net realized loss on investments	(450,168)	(1,043,096)
Net change in premiums, discounts and amortization	 538,786	 357,873
Investment Portfolio, at Fair Value	\$ 363,441,460	\$ 341,488,783

# Financing Activities

Net cash provided by our financing activities for the nine months ended September 30, 2021 was \$7,298,120 which consisted of \$15,100,000 from issuances of 1,617,822 shares of Common Stock to our stockholders, in connection with our capital calls during the period. This was partially offset by \$7,801,880 of distributions paid to our common stockholders. Net cash provided by our financing activities for the nine months ended September 30, 2020 was \$21,874,419, which consisted of issuances of 3,234,331 shares of Common Stock to our stockholders, in connection with our capital calls and our dividend reinvestment plan during the period. This was partially offset by \$8,125,581 of distributions paid to our common stockholders.

## Equity Activity

An investor made capital commitments to us in the amounts set forth below as of the date opposite each capital commitment:

Amount	Date
\$140,000,000	June 23, 2015
\$50,000,000	December 2, 2016
\$100,000,000	On December 7, 2017
\$40,000,000	March 22, 2019
\$30,000,000	September 23, 2019
\$11,200,000	March 20, 2020
\$8,900,000	May 28, 2021

As of September 30, 2021, all the capital commitments have been funded by our investors.

The number of shares of our Common Stock issued and outstanding as of September 30, 2021 and December 31, 2020, were 39,961,405 and 38,343,580, respectively.

#### Distributions to Stockholders – Common Stock Distributions

We have elected to be treated, and intends to comply with the requirements to qualify annually, as a RIC for U.S. federal income tax purposes. As a RIC, we generally are not subject to corporate-level U.S. federal income taxes on ordinary income or capital gains that we timely distribute as dividends for U.S. federal income tax purposes to our stockholders. To qualify to be taxed as a RIC and thus avoid corporate-level income tax on the income that we distribute as dividends to our stockholders, we are required to distribute dividends to our stockholders each taxable year generally of an amount at least equal to 90% of our investment company taxable income, determined without regard to the deduction for any dividends paid. To avoid a 4% excise tax on undistributed earnings, we are required to distribute dividends to our stockholders in respect of each calendar year of an amount at least equal to the sum of (i) 98% of our ordinary income (taking into account certain deferrals and elections) for such calendar year, (ii) 98.2% of our capital gain net income, adjusted for certain ordinary losses, for the one-year period ending October 31 of that calendar year and (iii) any income or capital gains recognized, but not distributed, in preceding calendar years and on which we incurred no federal income tax. We intend to make distributions to stockholders on an annual basis of substantially all of our net investment income. Although we intend to make distributions of net realized capital gains, if any, at least annually, out of assets legally available for such distributions, we may in the future decide to retain such capital gains for investment. In addition, the extent and timing of special dividends, if any, will be determined by our Board of Directors and will largely be driven by portfolio specific events and tax considerations.

We may fund our cash distributions from any sources of funds available, including offering proceeds, borrowings, net investment income from operations, capital gains proceeds from the sale of assets, non-capital gains proceeds from the sale of assets, dividends or other distributions paid to us on account of preferred and common equity investments in portfolio companies and fee waivers from our Adviser. Our distributions may exceed our earnings, especially during the period before we have substantially invested the proceeds from an offering. As a result, a portion of the distributions may represent a return of capital for U.S. federal income tax purposes. Thus the source of a distribution to our stockholders may be the original capital invested by the stockholder rather than our income or gains. In addition, we may be limited in our ability to make distributions due to the asset coverage test for borrowings applicable to us as a BDC under the 1940 Act. We declared and paid distributions of \$7,801,905, or \$0.200 per share during the nine months ended September 30, 2021. We declared and paid distributions of \$8,125,607, or \$0.215 per share during the nine months ended September 30, 2020.

The determination of the tax attributes of our distributions is made annually at the end of our taxable year, based upon our taxable income for the full taxable year and distributions paid for the full taxable year. Therefore, estimates made on an interim basis may not be representative of the actual tax attributes of distributions for a full year. The actual tax characteristics of distributions to stockholders will be reported to stockholders subject to information reporting after the close of each calendar year on Form 1099-DIV.

## **Related Party Fees**

For the three months ended September 30, 2021 and 2020, we recorded base management fees of \$947,361 and \$874,188, respectively. Offsetting these fees were waivers to the base management fees of \$331,576 and \$305,966, respectively, as set forth within the accompanying statements of operations.

For the nine months ended September 30, 2021 and 2020, we recorded base management fees of \$2,810,141 and \$2,697,570, respectively. Offsetting those fees were waivers to the base management fees of \$983,548 and \$944,150, respectively, as set forth within the accompanying statements of operations.

For the three and nine months ended September 30, 2021, we recorded incentive fees of \$260,092 and \$647,839, respectively. Offsetting these fees were waivers to the incentive fees of \$234,083 and \$583,056, respectively, as set forth within the accompanying statements of operations. For the three and nine months ended September 30, 2020, we recorded incentive fees of \$356,461 and \$1,641,419, respectively. Offsetting these fees were waivers to the incentive fees of \$320,815 and \$1,437,466, respectively, as set forth within the accompanying statements of operations.

For both the three months ended September 30, 2021 and 2020, we recorded administrative fees of \$62,500, as set forth within the accompanying statements of operations. For both the nine months ended September 30, 2021 and 2020, we recorded administrative fees of \$198,750 as set forth within the accompanying statements of operations.

Fees due to related parties as of September 30, 2021 and December 31, 2020 on our accompanying statements of assets and liabilities were as follows:

	Septen	1ber 30, 2021	Decer	nber 31, 2020
Net base management fee due to Adviser	\$	615,785	\$	597,141
Net incentive fee due to Adviser		26,009		17,703
Total fees due to Adviser, net of waivers		641,794		614,844
Fee due to Administrator, net of waivers		66,250		66,250
<b>Total Related Party Fees Due</b>	\$	708,044	\$	681,094

## **Tender Offers**

We do not currently intend to list shares of our Common Stock on any securities exchange, and we do not expect a public market for them to develop in the foreseeable future. Therefore, stockholders should not expect to be able to sell their shares of our Common Stock promptly or at a desired price. To provide our stockholders with limited liquidity, we may, in the absolute discretion of our Board of Directors, conduct an annual tender offer. Our tenders for the shares of Common Stock, if any, would be conducted on such terms as may be determined by our Board of Directors and in accordance with the requirements of applicable law, including Section 23(c) of the 1940 Act and Regulation M under the Exchange Act. We have not commenced any tender offers, and we do not currently intend to conduct any tender offers in the near future.

## **CRITICAL ACCOUNTING POLICIES**

This discussion of our operations is based upon our financial statements, which are prepared in accordance with GAAP. The preparation of these financial statements requires our management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses.

Changes in the economic environment, financial markets and any other parameters used in determining such estimates could cause actual results to differ. In addition to the discussion below, we describe our critical accounting policies in the notes to our financial statements.

## Valuation of Investments

We conduct the valuation of our investments, pursuant to which our net asset value is determined, at all times consistent with GAAP and the 1940 Act. Our Board of Directors, with the assistance of our Audit Committee, determines the fair value of our investments, for investments with a public market and for investments with no readily available public market, on at least a quarterly basis, in accordance with the terms of ASC 820. Our valuation procedures are set forth in more detail below.

ASC 820 defines fair value as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." Fair value is a market-based measurement, not an entity-specific measurement. For some assets and liabilities, observable market transactions or market information might be available. For other assets and liabilities, observable market transactions and market information might not be available. However, the objective of a fair value measurement in both cases is the same – to estimate the price when an orderly transaction to sell the asset or transfer the liability would take place between market participants at the measurement date under current market conditions (that is, an exit price at the measurement date from the perspective of a market participant that holds the asset or owes the liability). ASC 820 establishes a hierarchal disclosure framework which ranks the observability of inputs used in measuring financial instruments at fair value. The observability of inputs is impacted by a number of factors, including the type of financial instruments and their specific characteristics. Financial instruments with readily available quoted prices, or for which fair value can be measured from quoted prices in active markets, generally will have a higher degree of market price observability and a lesser degree of judgment applied in determining fair value.

The three-level hierarchy for fair value measurement is defined as follows:

*Level 1* — Inputs to the valuation methodology are quoted prices available in active markets for identical financial instruments as of the measurement date. The types of financial instruments in this category include unrestricted securities, including equities and derivatives, listed in active markets. We do not adjust the quoted price for these instruments, even in situations where we hold a large position, and a sale could reasonably be expected to impact the quoted price.

*Level 2* — Inputs to the valuation methodology are quoted prices in markets that are not active or for which all significant inputs are either directly or indirectly observable as of the measurement date. The types of financial instruments in this category include less liquid and restricted securities listed in active markets, securities traded in markets that are not active, government and agency securities, and certain over-the-counter derivatives where the fair value is based on observable inputs.

*Level 3* — Inputs to the valuation methodology are unobservable and significant to the overall fair value measurement, and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation. The types of financial instruments in this category include investments in privately held entities, non-investment grade residual interests in securitizations, collateralized loan obligations, and certain over-the-counter derivatives where the fair value is based on unobservable inputs.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the determination of which category within the fair value hierarchy is appropriate for any given financial instrument is based on the lowest level of input that is significant to the fair value measurement. Assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the financial instrument.

Pursuant to the framework set forth above, we value securities traded in active markets on the measurement date by multiplying the exchange closing price of such traded securities/instruments by the quantity of shares or amount of the instrument held. We may also obtain quotes with respect to certain of our investments from pricing services, brokers or dealers' quotes, or counterparty marks in order to value liquid assets that are not traded in active markets.

Pricing services aggregate, evaluate and report pricing from a variety of sources including observed trades of identical or similar securities, broker or dealer quotes, model-based valuations and internal fundamental analysis and research. When doing so, we determine whether the quote obtained is sufficient according to GAAP to determine the fair value of the security. If determined adequate, we use the quote obtained.

Securities that are illiquid or for which the pricing source does not provide a valuation or methodology or provides a valuation or methodology that, in the judgment of our Board of Directors, does not represent fair value, are each valued as of the measurement date using all techniques appropriate under the circumstances and for which sufficient data are available. These valuation techniques vary by investment but include comparable public market valuations, comparable precedent transaction valuations and discounted cash flow analyses. Inputs for these valuation techniques include relative credit information, observed market movement, industry sector information, and other market data, which may include benchmarking of comparable securities, issuer spreads, reported trades, and reference data, such as market research publications, when available. The process used to determine the applicable value is as follows:

(i) Each portfolio company or investment is initially valued by the investment professionals of the Adviser responsible for the portfolio investment using a standardized template designed to approximate fair market value based on observable market inputs and updated credit statistics and unobservable inputs. Additionally, as a part of our valuation process, the Adviser may employ the services of one or more independent valuation firms engaged by us;

(ii) Preliminary valuation conclusions are documented and discussed with our senior management and members of the Adviser's valuation team;

(iii) Our Audit Committee reviews the assessments of the Adviser or independent valuation firm (to the extent applicable) and provides our Board of Directors with recommendations with respect to the fair value of the investments in our portfolio; and

(iv) Our Board of Directors discusses the valuation recommendations of our Audit Committee and determines the fair value of the investments in our portfolio in good faith based on the input of the Adviser, the independent valuation firm (to the extent applicable) and in accordance with our valuation policy.

Our Audit Committee's recommendation of fair value is generally based on its assessment of the following factors, as relevant:

- the nature and realizable value of any collateral;
- call features, put features and other relevant terms of debt;
- the portfolio company's ability to make payments;
- the portfolio company's actual and expected earnings and discounted cash flow;
- prevailing interest rates for like securities and expected volatility in future interest rates;
- the markets in which the portfolio company does business and recent economic and/or market events; and
- comparisons to publicly traded securities.

Investment performance data utilized are the most recently available as of the measurement date, which in many cases may reflect up to a one quarter lag in information.

Securities for which market quotations are not readily available or for which a pricing source is not sufficient may include the following:

- private placements and restricted securities that do not have an active trading market;
- securities whose trading has been suspended or for which market quotes are no longer available;
- debt securities that have recently gone into default and for which there is no current market;
- securities whose prices are stale; and
- securities affected by significant events.

Our Board of Directors is responsible for the determination, in good faith, of the fair value of our portfolio investments.

Determination of fair value involves subjective judgments and estimates. Accordingly, the notes to our financial statements express the uncertainty with respect to the possible effect of such valuations, and any change in such valuations, on our financial statements.

Security transactions are recorded on the trade date (the date the order to buy or sell is executed or, in the case of privately issued securities, the closing date, which is when all terms of the transactions have been defined). Realized gains and losses on investments are determined based on the identified cost method.

In addition, on December 3, 2020, the SEC announced that it adopted Rule 2a-5 under the 1940 Act, which establishes an updated regulatory framework for determining fair value in good faith for purposes of the 1940 Act. The adopted rule clarifies how fund boards can satisfy their valuation obligations in light of recent market developments. The rule permits boards, subject to board oversight and certain other conditions, to designate certain parties to perform the fair value determinations. We will continue to review the adopted rule and its impact on us and our valuation policies and intend to comply with such requirements on or before the SEC's required compliance date in 2022.

Refer to Note 3 — *Investments* in the notes to our accompanying financial statements included elsewhere in this quarterly report for additional information regarding fair value measurements and our application of ASC 820.

## **Revenue Recognition**

We record interest income on an accrual basis to the extent that we expect to collect such amounts. For loans and debt securities with contractual PIK interest, which represents contractual interest accrued and added to the principal balance, we generally will not accrue PIK interest for accounting purposes if the portfolio company valuation indicates that such PIK interest is not collectible. We do not accrue as a receivable interest on loans and debt securities for accounting purposes if we have reason to doubt our ability to collect such interest. OID, market discounts or premiums are accreted or amortized using the effective interest method as interest income. We record prepayment premiums on loans and debt securities as interest income.

## Net Realized Gains or Losses and Net Change in Unrealized Appreciation or Depreciation

We measure net realized gains or losses by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment, without regard to unrealized appreciation or depreciation previously recognized, but considering unamortized upfront fees and prepayment penalties. Net change in unrealized appreciation or depreciation reflects the change in portfolio investment values during the reporting period, including any reversal of previously recorded unrealized appreciation or depreciation, when gains or losses are realized.

## PIK Interest

We may have investments in our portfolio that contain a PIK interest provision. Any PIK interest will be added to the principal balance of such investments and is recorded as income if the portfolio company valuation indicates that such PIK interest is collectible. In order to maintain our status as a RIC, substantially all of this income must be included in the amounts paid out by us to stockholders in the form of dividends, even if we have not collected any cash.

#### U.S. Income Taxes

We have elected to be subject to tax as a RIC under Subchapter M of the Code. As a RIC, we generally will not have to incur any corporate-level U.S. federal income taxes on any ordinary income or capital gains that we distribute as dividends to our stockholders. To qualify and maintain our qualification as a RIC, we must meet certain source-of-income and asset diversification requirements as well as distribute dividends to our stockholders each taxable year of an amount generally at least equal to 90% of our investment company taxable income, determined without regard to any distributions paid.

Depending on the level of taxable income earned in a taxable year, we may choose to retain taxable income in excess of current year distributions into the next taxable year. We would then incur a 4% excise tax on such taxable income, as required. To the extent that we determine that our estimated current year annual taxable income may exceed estimated current year distributions, we will accrue an excise tax, if any, on estimated excess taxable income as taxable income is earned. We did not accrue any excise tax for the fiscal years ended December 31, 2020, 2019, and 2018.

Because U.S. federal income tax regulations differ from GAAP, distributions in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes. Differences may be permanent or temporary. Permanent differences are reclassified within capital accounts in the financial statements to reflect their tax character. Permanent differences may also result from differences in classification in certain items, such as the treatment of short-term gains as ordinary income for tax purposes. Temporary differences arise when certain items of income, expense, gain or loss are recognized at some time in the future.

We evaluate tax positions taken or expected to be taken in the course of preparing our financial statements to determine whether any relevant tax positions would "more-likely-than-not" be sustained by the applicable tax authority. Tax positions not deemed to meet the "more-likely-than-not" threshold are reversed and recorded as a tax benefit or expensed in the current fiscal year. All penalties and interest associated with any income taxes accrued are included in income tax expense. Conclusions regarding tax positions are subject to review and may be adjusted at a later date based on factors including, but not limited to, ongoing analyses of tax law, regulations and interpretations thereof. Our accounting policy on income taxes is critical because if we are unable to qualify, or once qualified, maintain our tax status as a RIC, we would be required to record a provision for corporate-level U.S. federal income taxes, as well as any related state or local taxes which may be significant to our financial results.

#### **COMMITMENTS AND CONTINGENCIES**

From time to time, we, the Adviser or the Administrator may become party to legal proceedings in the ordinary course of business, including proceedings related to the enforcement of our rights under contracts with our portfolio companies. Neither we, the Adviser nor the Administrator is currently subject to any material legal proceedings.

Unfunded commitments to provide funds to portfolio companies are not reflected in our accompanying statements of assets and liabilities. Our unfunded commitments may be significant from time to time. These commitments are subject to the same underwriting and ongoing portfolio maintenance as are the on-balance sheet financial instruments that we hold. Since these commitments may expire without being drawn, the total commitment amount does not necessarily represent future cash requirements. We use cash flow from normal and early principal repayments and proceeds from borrowings and offerings to fund these commitments. As of September 30, 2021, we had 26 investments with unfunded commitments of \$6,981,786. As of December 31, 2020, we had 14 investments with unfunded commitments of \$3,676,567. We believe that, as of September 30, 2021 and December 31, 2020, we had sufficient assets to adequately cover any obligations under our unfunded commitments.

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are subject to financial market risks, including changes in interest rates. During the period covered by our financial statements, many of the loans in our portfolio had floating interest rates, and we expect that many of our loans to portfolio companies in the future will also have floating interest rates based on LIBOR or an equivalent risk-free index rate. Interest rate fluctuations may have a substantial negative impact on our investments, the value of our Common Stock and our rate of return on invested capital. In addition, U.S. and global capital markets and credit markets have experienced a higher level of stress due to the global COVID-19 pandemic, which has resulted in an increase in the level of volatility across such markets and a general decline in value of the securities held by us. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income.

In addition, the COVID-19 pandemic has resulted in a decrease in LIBOR and a general reduction of certain interest rates by the U.S. Federal Reserve and other central banks. A continued decline in interest rates, including LIBOR, could result in a reduction of our gross investment income.

Change in interest rates	Increase (decrease) in investment income
Down 300 basis points	(94,010)
Down 200 basis points	(94,010)
Down 100 basis points	(94,010)
Up 100 basis points	1,680,396
Up 200 basis points	5,346,486
Up 300 basis points	9,012,577

Although we believe that this measure is indicative of our sensitivity to interest rate changes, it does not reflect potential changes in the credit market, credit quality, size and composition of the assets on the Consolidated Statements of Assets and Liabilities and other business developments that could affect our net increase in net assets resulting from operations or net investment income. Accordingly, no assurances can be given that actual results would not differ materially from those shown above.

In addition, any investments we make that are denominated in a foreign currency will be subject to risks associated with changes in currency exchange rates. These risks include the possibility of significant fluctuations in the foreign currency markets, the imposition or modification of foreign exchange controls and potential illiquidity in the secondary market. These risks will vary depending upon the currency or currencies involved.

We may hedge against interest rate and currency exchange rate fluctuations by using standard hedging instruments such as futures, options and forward contracts subject to the requirements of the 1940 Act. While hedging activities may insulate us against adverse changes in interest rates, they may also limit our ability to participate in benefits of lower interest rates with respect to our portfolio of investments with fixed interest rates.

## **ITEM 4. CONTROLS AND PROCEDURES**

#### **Disclosure Controls and Procedures**

As of the period covered by quarterly this report, our management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness and design and operation of our disclosure controls and procedures. Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective at a reasonable assurance level in timely alerting management, including the Chief Executive Officer and Chief Financial Officer, of material information about us required to be included in periodic SEC filings. However, in evaluation of the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

#### **Changes in Internal Control Over Financial Reporting**

There have been no changes in our internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, that occurred during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II-OTHER INFORMATION

# **ITEM 1. LEGAL PROCEEDINGS**

We are not currently subject to any material legal proceeding, nor, to our knowledge, is any material legal proceeding threatened against us.

From time to time, we, our Adviser or Administrator may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. While the outcome of these legal proceedings cannot be predicted with certainty, we do not expect that these proceedings will have a material effect upon our financial condition or results of operations.

From time to time, we are involved in various legal proceedings, lawsuits and claims incidental to the conduct of our business. Our businesses are also subject to extensive regulation, which may result in regulatory proceedings against us.

## **ITEM 1A. RISK FACTORS**

In addition to the risks discussed below, important risk factors that could cause results or events to differ from current expectations are described in Part I, Item 1A "Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2020 filed with the SEC on March 19, 2021.

# Legislation passed in 2018 allows us to incur additional leverage and would require us to offer liquidity to our stockholders.

Under the 1940 Act, a BDC generally is required to maintain asset coverage of 200% for senior securities representing indebtedness (such as borrowings from banks or other financial institutions) or stock (such as preferred stock). The SBCAA, which was signed into law on March 23, 2018, provides that a BDC's required asset coverage under the 1940 Act may be reduced from 200% (i.e., \$1 of debt outstanding for each \$1 of equity) to 150% (i.e., \$2 of debt outstanding for each \$1 of equity). This reduction in asset coverage permits a BDC to double the amount of leverage it may utilize, subject to certain approval, timing and reporting requirements, including either stockholder approval or approval of a majority of the directors who are not "interested persons" (as defined in the 1940 Act) of the BDC and who have no financial interest in the arrangement. As a result, if we receive the relevant approval and we comply with the applicable disclosure requirements, we would be able to incur additional leverage, which may increase the risk of investing in us. In addition, since our base management fee is payable based upon our average adjusted gross assets, which includes any borrowings for investment purposes, our base management fee expenses may increase if we incur additional leverage.

We have not commenced any tender offers, and we do not currently intend to conduct any tender offers. As a non-traded BDC, however, if we receive the relevant approval to increase our authorized leverage, we will be required to offer our stockholders the opportunity to sell their shares of Common Stock over the next year following the calendar quarter in which the approval was obtained. The timing and method for such offers has not been determined at this time.

# ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

Refer to our Current Report on Form 8-K filed on July 6, 2021 for issuances of our Common Stock during the quarter ended September 30, 2021. Such issuances were exempt from the registration requirements of the Securities Act pursuant to Section 4(a)(2) of the Securities Act and Regulation D thereunder.
